## Annual Data Verification for National Report

Data verification hosted by the Ministry of Foreign Affairs and Trade (MFAT) is an annual event which involves representatives from all government ministries and non-government organizations.

Policy and Planning Division Principal Officer, Nuu Tautaiolevao and OIC of Stats and Media Unit, Sergeant Solomon Aimaasu were representing our ministry for this event .

The purpose of data verification is to ensure that data collected are as accurate as possible, and to minimize human and instrument errors - including those which arise during data processing. Data verification is an on-going process which should start at the data gathering stage, and continue during data entry and analysis.

## Donation from Samoa Red Cross Society

Samoa Red Cross Society with the assistance of the International Committee of the Red Cross (ICRC) donated some goods for Tanumalala Prison as part of their support for COVID-19 while they celebrated 72 years since the Red Cross Society has been established. They work in close coordination with authorities to understand what kind of protective measures they put in place in detention facilities to prevent the spread of coronavirus there. Detention facilities, which are overcrowded, suffer from poor hygiene or lack ventilation, pose an extra challenge when it comes to preventing and containing infectious diseases, including the [Coronavirus COVID-19](#).

# Mother's Day celebration

"Fortunate is one who has a mother, and much more fortunate is one who has an understanding and big-hearted mother. It is really "heaven upon the earth" to savour the empathy and love of one's mother. No relationship on earth is so passionate, so deep-seated, so sincere and so genuine as one existing between a mother and her child. It is based on the highest and the most unselfish form of love. A country can never be great in the generations to come without great mothers."

BEING A MOTHER IS NOT ABOUT WHAT YOU GAVE UP TO HAVE A CHILD, BUT WHAT YOU'VE GAINED FROM HAVING ONE.

# Recruit 2020 OST and Riot training

The new recruits were well equipped by Training officers with dynamic hands-on techniques and some measure to control people in spontaneous attacks, in order to get them prepared when working on the field. OST and Riot training are some of the significant drilling every police officer must go through to develop a mindset to detect and arrest criminals.

## Arrival of incoming passengers to be in quarantine

Samoan citizens who were supposed to return, arrived on the last week of May and are currently in quarantine at Isolation Sites for 14 days as the usual process according to the State of Emergency declared.

Police officers are to ensure that such order is well enforced and no one shall make an infringement.
